To Erin Pizzey,

This award is simply an extensive expression of thanks from the millions of people everywhere who have been helped by you. Your courage and perseverance in establishing the first domestic violence shelter and writing *Scream Quietly or the Neighbours Will Hear*, the first book about the issue, brought forth a movement that has shaken the world.

Your continued involvement through your second book, *Violence Prone*, and your insistence on honesty and helping all victims, regardless of gender, continues to challenge and shape the professional and service community that came to be created, because of your work.

We're honored to present this small token to you for a lifetime of humanitarian achievement.
